

MULTIFAITH CALENDAR

Cherishing Earth's Bounty

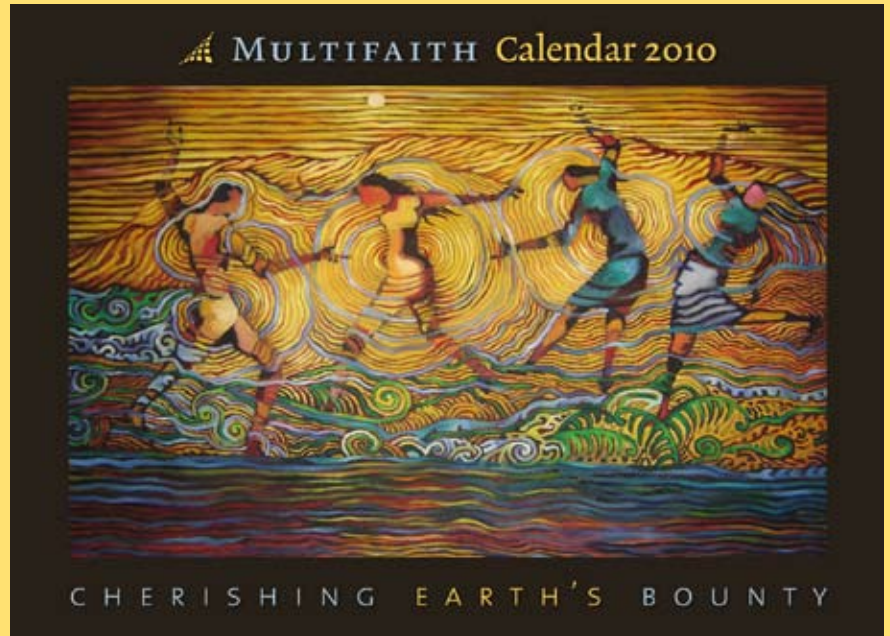

The Earth is blessed with abundance. Our imaginations can easily swirl in images of the richness of our surroundings; opulent fields that feed us, rivers and lakes which provide fresh drinking water and wide varieties of food sources for humans and animals alike. Our connections to the Divine occur on the mountain top, in the lush forest, or on the expansive ocean. It is then that we realize that all need to be guarded and cherished.

The calendar is an effective educational tool to embrace our world of diversity where people of many cultures and faiths share lives and seek a more comprehensive and intimate understanding of each other's beliefs.
